

# Court Replacement Project

## Latest Update – 5<sup>th</sup> September

Dear Member,

As part of keeping everyone informed, I'll be sharing a short update each Friday on the progress of our court replacement project. This is a major and exciting investment for our Club, and we want to ensure you are kept fully up to date as the work unfolds.

I'm delighted to report that **Week One has gone very well**. The schedule is running smoothly, and—encouragingly—no hidden issues were found beneath the carpet surfaces. This is excellent news for both the project timeline and overall progress.

**Looking ahead to next week**, the focus will be on preparing the courts for the new surface installation. This includes thoroughly cleaning the existing areas and preparing the kids' zone court to ensure the ground remains porous and drains properly once the TigerTurf is laid.

The team from **Chiltern Sports Contractors** have worked incredibly hard this week and have been a real pleasure to work with.

Thank you for your continued support and enthusiasm as we move through this exciting upgrade. I look forward to keeping you updated each week and sharing the journey with you.

Kind regards

Mel
